Thank you! I emailed him as well. I may have taken his phone number down incorrectly.

I do not have another number from him, that is the number I've spoken to him on in the past. He typically will answer emails within the same day, if that is any help.

Hello Isabel,

I tried Calling Jim Boucher but I got an error message for the cell phone number Ex. 6 Personal Privacy (PP) Do you have a different contact phone number for him?

Hi Isabel –

ECAD is serving as the lead on this facility and there has been of team of folks sharing information. I'm sending this along to Candace and the team as a heads up and to see how ECAD may want to handle the call.

Did he offer any other specifics regarding his questions or was it pretty much limited to what is below?

Candace – let us know if you'd like to kick this around a little before someone reaches back to him. Be glad to discuss a little if it would be helpful.

Thanks Bethany for the note.

Jamie

Hi Isabel – Forwarding your note to our pesticides Branch Chief, Jamie Green, who has been working on this topic.

Best,  
Bethany

**Subject:** Community member concern

Good afternoon,

A community member reached out to me regarding the AltEn ethanol plant near Mead, Nebraska. I am hoping to find a contact that might be able to address his concerns. The NDEE Facility ID is 84069. This is some NDEE information I could find in relation to the site: <http://dee.ne.gov/Press.nsf/pages/AltEn>.

In looking through the directory, your names are a few that I saw might be good contacts to start out with. If you'd be able to help, or can point me to the person that can, please let me know so that I can put him in contact with you.

The concern he had more specifically was that the state granted an extension for the remedial action plan although there are emergency response actions ongoing. He was concerned that there had not been sufficient work done to characterize the contamination. He specifically wants to speak with an EPA staff member regarding this.

Thanks,  
Isabel
